

I enjoy listening to XM Satellite Radio and its traffic and weather channels, and it's fun to hear weather reports in other places, such as Orlando, FL. Satellite radio provides variety and quality that are not available elsewhere; the variety of music and lack of commercials is great. We pay for these services, and it should not be up to the National Association of Broadcasters to dictate what we are permitted to hear. I urge the FCC to reject the NAB's petition 04-160.
